Services and Agreement

☐ Supervised visitation ☐ Monitored exchange ☐ Virtual visit

This agreement supplements the role-specific intake packet, signed program rules, applicable court orders, and approved case instructions. It does not alter custody or parenting-time rights.

Visiting parents follow supervised-session conduct rules. Custodial parents and caregivers follow transportation, child preparation, authorized pickup, and arrival/departure requirements. Only rules relevant to the participant's role apply.

Bright Beginnings staff remain neutral, document observations objectively, and may redirect, pause, or end a visit for safety or policy compliance. Staff do not provide legal advice or guarantee outcomes.

Participants must promptly disclose new court orders, contact restrictions, and safety concerns. Visits require completion of intake and orientation and final management clearance.

Documentation and Records

Objective visit notes are securely maintained in the family chart. Routine notes are not automatically provided after each visit.

Requests for reports or records are reviewed for proper identity, consent, court authority, agency requirements, and applicable law. Lawful disclosures, subpoenas, and mandatory safety reports may be required.

FSS / Dependency Service Agreement

Complete one agreement per participating adult. Use with the correct role-specific intake packet.

Reporting and Fees

Required reports under the applicable FSS agency agreement are included in the contracted service, with no additional private-family report charge for those required reports.

The FSS agreement, agency authorization, and court requirements control report recipients, content, and timing. Any additional services or family charges require appropriate authorization and written disclosure.

Agency referral does not automatically make a parent responsible for payment. Fees never override legally required disclosure, testimony, or mandatory reporting.
